

To all new Postgraduate Students
School of Biosciences
Malaysia Campus

September 2016

Congratulations on securing a place at the University of Nottingham's School of Biosciences Malaysia Campus. I am sure that you will enjoy life at the Semenyih Campus where you will be joining a community of motivated and supportive students with staff committed to providing a first class learning and teaching environment. I hope that you will soon start to reap the benefits of working in an environment at the cutting edge of fundamental and applied aspects of the biological and physical sciences.

The School at the Semenyih Campus is part of the School of Biosciences based at the University of Nottingham in the UK and there are close research and teaching links between the campuses.

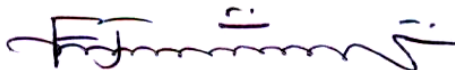

Further information about services and facilities on the campus will be available on your arrival.

I hope you have a very enjoyable and intellectually stimulating time with us and I look forward to meeting you.

In the meantime, if you have any questions, please contact:

Marcus Low
Faculty of Science
The University of Nottingham Malaysia Campus
Jalan Broga, 43500 Semenyih,
