Stay ahead of your peers and get a world-class degree in finance and business analytics, that will equip you with the right know-how

BSc (Hons) Finance, Management and Business Analytics
Nottingham University Business School (NUBS) Malaysia

Why choose the University of Nottingham Malaysia?

Open the door to a globally-ranked university, here in Malaysia.

The University of Nottingham, “Britain’s first truly global university”, extended its campus to Malaysia in 2000. Ranked 114th in the world and 18th in the UK in the QS World University Rankings 2023, the University of Nottingham Malaysia is the destination of choice for the brightest, internationally-curious minds.

Nottingham University Business School (NUBS) is proud to be among an elite group of business schools worldwide to gain ‘triple crown’ accreditation from the three most influential accrediting organisations – AACSB, EQUIS and AMBA. Interconnected across the three worldwide campuses, NUBS has its finger on the pulse of rapidly evolving, global business and management.

BSc (Hons) Finance, Management and Business Analytics

This programme will prepare you to keep pace with the data-driven era of tomorrow and thrive in the rapidly changing world of work. You will develop an understanding of appropriate business analytics techniques to extract actionable insights from relevant data for making informed decisions to solve finance and management related issues in a data-driven era.

You will learn:

- exploratory data analytics
- machine learning and predictive modelling for Finance and Management
- model evaluation
- data visualisation
- presentation of data insights
- ethics in data science
- and data-driven business decision-making.

Why choose this course?

- Study statistical programming skills.
- Experience various productivity tools and software for data analytics.
- Implement applied predictive modelling and machine learning algorithms, developing Data Science solutions to business problems.
- Apply and extend knowledge gained from taught components in a Dissertation investigating a current research topic.
- Industry links: Benefit from the NUBS’ collaborative partnership with SAS, a global leader in business analytics.
- Access and use the NUBS Financial Trading Room and financial databases.
- Participate in development and employability programmes that bring you closer to top employers, and compete for prizes awarded by industry partners
- Opportunity to study abroad at the University of Nottingham’s campuses in the UK and/or China, or at one of our partner universities.
