Budget guidelines

CFFRCPLUS is a scholarship scheme designed to support MRes and PhD students working on underutilised crops registered exclusively or primarily at the University of Nottingham Malaysia Campus.

A split-site arrangement allows PhD students to spend up to one year of study at the University of Nottingham campuses in the UK and/or China or at a partner institution which is able to contribute in cash or kind to the research activities and supervision of individual students.

CFFRCPLUS does NOT support the costs of capital equipment but will contribute to the consumable costs of research where these are not provided by other means.

When preparing budget estimates, the following figures provide a guideline for current applications.

	Malaysia/ China (RM)	UK (RM Equivalent)
Fees	50,000	50,000
Stipend	2,200 per calendar month	4,400 per calendar month
Consumables	Justified by project activities	Justified by project activities
Travel	5,000 (RM) for one economy return airfare to partner campus
