Rapid publication: Submission to First Decision: 20 days

Special Issue: Submission Deadline: **15 December 2019**

Green Technologies: Bridging Conventional Practices and Industry 4.0

This Special Issue aims to incorporate the advances in green technologies to cyber-based industries. Topics include, but are not limited to, the following:

- Development of new disease-specific models to guide therapy; 3D printing
- Air pollution monitoring and control
- Carbon emission reduction
- Computational tools for environmental applications
- Energy and environmental policy
- Environmental monitoring, assessment and management Industry 4.0
- Process system engineering; Renewable energy
- Solid/biomass waste treatment, management, and recycling
- Waste minimisation
