

**University of
Nottingham**
UK | CHINA | MALAYSIA

Dear Graduands,

Congratulations on your graduation!

We hope that your education journey with us has been an exciting one.

The Ministry of Higher Education, in its continuous effort to improve higher education in Malaysia, requires all graduating students to participate in the **Tracer Study**. This is an online survey.

Tracer Study is an avenue the Ministry uses to gather the opinions and feedback from students to help them in the future planning and improvement of our education system. This information is also used to evaluate and rank institutions of higher education in Malaysia through the SETARA ranking system.

When the first SETARA ranking was out in 2009, the University of Nottingham Malaysia (UNM) was a top runner in the Tier 5 category achieving the highest score amongst other institutions and we would like move into Tier 6 (the highest rank), establishing ourselves as a top notch University. Being listed as a Tier 6 institution will further establish UNM as a world class university in Malaysia. In the SETARA 2011 ranking, UNM has further maintained its Tier 5 ranking due to the effort taken by the students to complete the Tracer Study.

This does not only benefit the University but also its graduates in terms of qualification recognition and employability. Your valuable feedback can make a change to UNM and to the Ministry of Higher Education in improving the standard of higher education in Malaysia.

For your information, the Tracer Study Survey for the February UNM Graduates can be accessed online from **23 December 2019 to 20 February 2020**. All graduates are required to complete and submit Tracer Study questionnaires which can be accessed directly at: <https://graduan.moe.gov.my/skpg15/Default.aspx>

This ONLINE exercise is **COMPULSORY**. You are expected to answer the all questions.

You will need to log-in using your I/C number for Malaysian students and Passport number for International students. As for institution type, we are known as IPTS (Private Institution) and choose the University of Nottingham, Malaysia Campus as your institution name. Once logged in, you will be able to answer all the questions as required and this must be done until completion.

As a gentle reminder, your failure to complete the survey forms will consequently delay your registration process and time is of essence as the graduation is in February 2020. All information given will be treated in confidence.

For your kind information, Tracer Study Survey 2.0 will be conducted by the UNM Careers Advisory Service to update the latest employment status of the graduates on the Ministry's graduates' database. It will take place by end of August each year, where you will be contacted through various channels. By answering the survey, you have given the consent to Careers Advisory Service in updating the database for the improvement of our education system where the information will be kept private and confidential. I truly encourage you to participate and your kind cooperation is highly appreciated.

For further enquiries, kindly contact the Careers Advisory Services at:

Tel: +603 – 8924 8375

E-mail: Syuhada.Fadil@nottingham.edu.my

Thank you for your time and participation.

Wishing you all the best in your future and we are proud of your achievements.

Regards,
Patrick Joseph
Director of Academic Services
