“International students, Selamat Datang, Huan Ying & Vanakkam!”

In diverse Malaysia, you will find a unique blend of Asian culture. The above is a warm welcome in Malay, Mandarin & Tamil from the University of Nottingham Malaysia Campus to you.
Covering an area of 127,350 square miles, Malaysia consists of two regions separated by the South China Sea: Peninsular Malaysia and Malaysian Borneo. The country’s population is over 28.7m to date.

Malaysia is home to three main ethnic groups: Malays, Chinese and Indians, as well as the native Orang Asli and East Malaysian tribes. Having been colonised by the Portuguese, Dutch and British, you will see, hear and taste these influences in the architecture, Malay language and the internationally acclaimed Malaysian cuisine. Visitors to Malaysia are also left awestruck by the tropical beauty of the country - with pristine beaches, ancient rainforests and UNESCO World heritage sites to explore, nature enthusiasts will find an exciting home in Malaysia.

The capital city
Kuala Lumpur, one of Asia’s most vibrant cities, KL is a true metropolis with some of the world’s tallest buildings, largest shopping havens and modern infrastructure. However, Kuala Lumpur also has plenty of historical sites, traditional villages (known as kampung) and parks. The city is served by a comprehensive transportation system including, buses, trains, a monorail and a number of airports.

Kuala Lumpur lies in the heart of Southeast Asia, and due to the number of low-cost and international carriers transiting in the country, is an inexpensive starting point for travel around Southeast Asia and Australia.

Cost of living
In order to live in Malaysia, we recommend that you have an income of around 700USD per month. This amount should cover accommodation, food, books and entertainment activities but excludes the cost of international travel. The cost of living in Temerloh is low compared to most cities in Malaysia and also to other major cities in the world. Below are some approximate costs of regular expenses encountered by international students:

Approximate costs
- 1 litre of water: RM3
- Asian meal: RM5-RM10
- Western meal: RM15 and above
- Haircut: RM20 (men’s)/RM70 (women’s)
- Movie ticket: RM10-RM15
- Taxi from UNMC to KL: RM 60- RM70

The average student spends between RM1,500 - RM2,000 per month on living expenses.

At the time of going to press, RM1 was equivalent to around USD 0.22. For up to date conversion rates, visit www.xe.com/ucc

Course-related costs
Course-related costs should cost 300-500USD per year depending on the subjects that you are taking.

Paid work
International students who enter Malaysia on a student visa have limited opportunities to undertake paid employment. Although there are some legal opportunities for students to work, the Malaysia Immigration Department has set limits for international students undertaking any form of paid employment while studying in Malaysia. You are only allowed to work 20 hours per week in a restricted category of jobs during long vacations. Under no circumstances should you undertake unofficial employment, as this could result in your student visa being revoked. If you have any questions, please contact the International Student Support Office:

The cost of living in Malaysia is quite low so I am able to go out with my friends regularly. Before I came to UNMC, I only expected a good education and a degree but now I have a sense of community from the active university life. Some of the free facilities available at UNMC that I take advantage of are the sports complex and the daily university shuttle bus that goes to the heart of Kuala Lumpur. Not having to worry about money too much allows me to focus on my studies and have lots of new experiences.

Rowida Abdelaziz, Egypt
BEng (Hons) Chemical Engineering
As an engineering student, I feel that my lecturers are excellent at identifying the strengths and weaknesses of students and helping us to maximize our potential. At UNMC, I experienced a very comfortable transition from secondary school to tertiary education and into the world of engineering. The multicultural environment has also helped with my social development and improved my knowledge of the world. I look forward to spending the next few years at UNMC and to contributing to my home country after I graduate.

Elson Dwikurnia, Indonesia
BEng/MEng (Hons) Electrical & Electronic Engineering

UNMC is truly an amazing place. My journey here began in September 2013 when I came for foundation; ever since I have met so many friends from around the world, and got to know so many cultures. UNMC offers excellent facilities and courses which helped my find new hobbies and have fulfilled me. Three years later, I have been elected President of the Student Association. I look forward to enhancing the quality of student life on-campus.

Linur Chubaev, Uzbekistan
BSc (Hons) Econometrics

Coming to the University of Nottingham Malaysia Campus was a life changing experience. I chose to study Psychology as I am passionate about the field, and the course at UNMC surpassed my expectations with its high standards, hi-tech facilities and comprehensive teaching and learning materials. The lively campus and vibrant community have something in store for everyone and if you are thinking of studying abroad, I definitely consider UNMC as the opportunity offered here are limitless.
